INTRODUCTION

This list of pre-1851 estate, parish and other large-scale maps has been compiled from catalogue records in the map catalogue. The purpose of this list is to group records by pre-1974 counties, enabling easy reference to the extent of holdings for a particular area.

The maps listed are those which depict a parish or larger area, including estates, gardens and plantations. The list is in three parts: England and Wales, Scotland and Ireland. Maps are listed alphabetically by place-name within each county. Multiple entries for a named place are listed chronologically, as are the maps of London (City and County).

Each entry contains the following information (where known):

- Title of map.
- Surveyor (also engraver if stated).
- Date (usually of survey).
- Scale.
- Source.
- Publication date for printed maps if different from date of survey.
- Shelfmark.

The dates appear in square brackets [] if not shown on the map. Approximate dates and scales are prefixed ca.

Entries with the shelfmark "xxx. C.R.O." were previously deposited in the library's collections but are now at the appropriate County Record Office.

Entries with the shelfmark Ashmolean were previously part of the Sutherland collection and have now been transferred to the Sackler Library.
